PROFESSIONAL EXPERIENCE

Jeff D. Griffin, Inc. May 1997 to Present
Breckenridge, Texas

CONSULTING GEOLOGIST. All facets of geological services including computerized mapping, lease evaluation, prospect generation as well as drilling, completion, and production consultation in the Bend Arch, Eastern Shelf of the Permian Basin and Texas Panhandle. Incorporated in January 2001.

Mustang Oil & Gas Corp. March, 1994 to April, 1997
Subsidiary of Gulf Resources Corp., San Antonio, Texas
Breckenridge, Texas

EXPLOITATION GEOLOGIST. (December 1995 to April 1997) Attached to Mid-Continent office with all geological responsibilities for North Central Texas and the Texas Panhandle. Geological component of production team that formulated Brown Dolomite and Redcave drilling programs in Hutchinson County, Texas and Granite Wash drilling program in Gray County, Texas. Additionally, put together successful Redcave recompletions, as well as, review of exploitation potential in all Texas Panhandle held properties (250+ wells). Continued developmental geology in north Texas focusing on held acreage recommendations for Brannon Bridge (Strawn) waterflood, Caddo Limestone waterflood, Strawn sand recompletions and exploitation of Bend Conglomerates.

Ranger, Texas

EXPLOITATION GEOLOGIST/PRODUCTION SUPERINTENDENT. (February 1995 to December 1995) Combined superintendent duties with more recognized geological identity. Focused on geological and environmental review for property acquisition, developmental behind pipe potential for Ranger District wells, as well as, began extensive geological review of 5,000 acre multi-pay held acreage in Stephens County, Texas.

Ranger, Texas

AREA PRODUCTION SUPERINTENDENT. (March 1994 to February 1995) Supervised production operations and personnel for 200+ wells in Ranger District (North Central Texas) including all phases of workovers, recompletions, routine well servicing, etc. Additionally, submitted recommendations for workovers, recompletions and acquisition candidates. Started geological exploitation of behind pipe potential of district wells.

Wagman Petroleum, Inc. September, 1990 to March, 1994

Abilene, Texas

GEOLOGIST - VICE PRESIDENT. Supervised and directed all field operations including drilling, completion, rework, and field production maintenance; Prospect generation, preparation, and presentation; wellsite geology, log analysis, subsurface mapping. Assisted in supervision, and wellsite geology for horizontal drilling ventures in Coke and Runnels Counties, Texas. Prepared AFE's on drilling, and recompletion; administered all Railroad Commission reporting and troubleshooting.

Griffin Resources

March, 1986 to August, 1990

Breckenridge, Texas

GEOLOGIST. Responsible for all geology, geological and production research, Railroad Commission reports, joint interest billing; prepared property reserve and net worth estimates forecasting oil and gas property values for purchase; Additionally, I served as a consulting geologist for outside firms, performing extensive wellsite geology and subsurface mapping.

Vinson Energy, Inc.

August, 1984 to March, 1986

Breckenridge, Texas

GEOLOGIST. Responsible for all geological work for small independent i.e. prospect generation, log analysis, mapping, drafting, research, and Railroad Commission reports; supervised drilling, performed wellsite geology and was involved in well completion, production and operations.

Jim Walker Consulting Geologist

May, 1984 to August, 1984

Breckenridge, Texas

& April, 1982 to January, 1983

GEOLOGIST. Performed all duties involved in consulting, including extensive wellsite geology, mapping, sample analysis, cross-sections, and research; prospect review, generation, and package preparation.

EDUCATION

Hardin-Simmons University

1984

Abilene, Texas

BACHELOR OF SCIENCE - GEOLOGY

ORGANIZATIONS

American Association of Petroleum Geologists

Active Member

Abilene Geological Society

Active Member
